eZ-Inkjet 100

eZ-Inkjet printers are built for reliability, ease-of-use, with high resolution and speed.

The new eZ-Inkjet 100 is based on Epson's new PRECISIONCORE print head technology.

This eZ-Inkjet supports three print widths - 33, 66 and 100mm [1.33, 2.66 & 4 inches]. The native 600x600 dot per inch resolution prints high quality graphics, text, and over 80 different types of bar codes.

The eZ-Inkjet 100 supports water, oil, solvent and UV-based inks to suit all sorts of applications.

Easy to Handle / Low Cost of Ownership

- An effortless and fast start-up procedure
- Print-heads quickly replaced in the field. Reduces down time and shipping costs to send printers back for service
- Connects seamlessly to GT Controller
- No click charges or other hidden operating fees

Comparison vs. Cartridge-Based Printers

- Consumables cost up to eight times less than cartridges?
- eZ-Inkjet is more environmentally friendly as you don't have to throw away the equivalent of twenty-three cartridges for 1 liter of ink.
- No stopping to change cartridges - increases throughput
- Much faster printing speeds with our eZ-Inkjet printer

Applications

- Integrates "eZily" into existing platforms to dynamically print text, barcodes, graphics for cards, webs, packaging, coding, serialization, personalization, decoration and marking
